## **Part 1 - Introduction to Medical Astrology**

*Medical Astrology is a fascinating, timeless subject of antiquity that has unfortunately lost its value in the wake of chemical (allopathic) medicine. While almost everyone knows his or her astrological Sun sign from their month and date of birth, they are not generally familiar with the personal characteristics associated with it, dietary and hygienic measures to be advised, and even preventative measures it provides to preserve, regain, or maintain one's health. Historically, the two oldest sciences of man's history are astrology and herbalism. In a rare book uncovered from the English archives on medical astrology, it was stated that as late as the 1700's, those who entered the profession as "doctor of medicine", either in England or other European countries, were obliged to pass an astrological examination. And if the candidate was found deficient in the knowledge of medical astrology, the individual was deemed unfit to practice medicine!*

*The usefulness of medical astrology, today, does not have to be restricted to doctors of medicine. Thanks to computers and the science of astronomy, those who turn their interest into more understanding and the application of medical astrology will gain some truly unique insights about themselves and others.*

### **KEYNOTES TO KEEP IN MIND WHEN READING THIS REPORT**

*The purpose of medical astrology is to find and prevent conditions and disorders. Just as a doctor will look at a blood chemistry report to gain an insight to diagnosis, so the medical astrologer looks at a birth or nativity map (horoscope) to gain an insight as well. The horoscope does not diagnose, rather it provides an insight into the constitution of the native,*

whether strong or weak, the healing potential, the metabolism whether normal, fast or sluggish, and pathological tendencies. It provides general insights which are then modified by the native's heredity, early childhood, and environmental factors (weather, climate, exposure to radiation, toxic waste, trauma, accidents, etc.). It also provides an insight into the general psychology of the native and if psychosomatic illness could be present. Further, based on Hindu and Tibetan philosophy, the horoscope can also show past life potentials and whether past events have been carried over into this life.

There are many types of astrology and the individual has the freedom to choose that which is of benefit. Predictive astrology deals with mundane factors, like timing events, predicting financial gain or loss, when to start or end events, etc. Judicial astrology deals with positions of the planets with respect to entire populations and was reportedly used by former President Roosevelt. Astro- Meteorology deals with weather forecasting and has been in use since the beginning of man's history and is still reported today in the Almanac. Medical Astrology is of course, the purpose of this report.

Sometimes you will have a condition or unusual symptoms that are not seen in the chart or by this report, but you will generally find the cause. For example, you may have beginning pains in the joints which a homeopath would classify as rheumatic or arthritic in nature. The chart shows Saturn in Libra indicating sluggish kidneys and slowed down filtration of its blood toxins. The arthritic pains come and go depending upon your diet and lifestyle, i.e. when fasting or drinking pure water the native's pains are reduced or eliminated, when eating during the holidays or rich foods, the pains are increased. Diagnosis is thus weakened kidneys, and the treatment is by detoxification, and long term management is to eat lessened amounts

of protein, avoiding hard cheeses, hard water, salt, and rich meats which clog the kidneys with protein overload.

**WHAT IS MEANT BY ONE'S ASTROLOGICAL SIGN?**

As the Earth rotates around the Sun, against the background of the stars of the night sky, the entire circumference is divided into twelve sections of orbital view known as the zodiac. When people refer to their astrological sign, they are merely stating which sign of the zodiac the Sun was in when they were born. This composes a relatively stable frame of reference along a horizontal plane called the ecliptic. The zodiac may be conceived of as a fixed pattern of stars, in terms of twelve divisions of the Earth's orbit.

In dealing with Medical Astrology, we must understand that the twelve signs of the zodiac equate to twelve major parts of the body, each separate part being under the dominion or ruled over by one of the twelve zodiacal signs. For example, Aries rules over the head and face, Taurus rules over the neck and throat, Cancer over of the breasts and chest. The placement of any

planet, as it travels through the zodiac in its orbital path, represents the mode or type of energy the zodiac is under influence. For example, the Sun in the zodiac represents vitality. If in Aries, during the spring, the head region is energized, ideas abound, the outlook is promising. If however, Mars is in Aries as well at that time, the Sun is called "combust" with Martian energy, which translates into dynamic action, if not anger, headaches, and inflammations for any part of the head. This is referred to as planetary action.

**Person-centered astrology deals with two essential features:**

- a) The basic geometrical structure of the space in which the person was centered at birth.
- b) All celestial bodies which passed through your body and time in ever varying relationships or "aspects", also called planetary angles. In this sense, the individual person is the most important dynamic in terms to relationship to the environment.

The natal chart is fundamental, it is the "promise" given at birth, progressed planets as they slowly change through life sets the stage for change - adaptation or maladaptation; and the current location of the planets as they move over positions in your natal chart indicates the type of stress factors that times the actual events or illness. Thus, the natal chart is the most important chart to begin your studies in medical astrology. It is the core chart from which all interpretations are based.

The natal horoscope also deals with a vertical line of reference known as the horizon or "meridian". When a human being is born he/she is surrounded on all sides by celestial bodies, visible in the sky, or invisible below the horizon. He/she has a vertebral spine that points towards the sky as an activity to

## SUN

The Sun is the source of your vital power, principally ruling the brain and heart in man and woman. Its sign location (zodiac Sun sign), aspects to other planets, and house position indicate the vitality of the body, especially in males. The Sun is thus the indicator of health in males, while the Moon governs health matters in females. However, the Sun and Moon are important in health matters in both sexes. The Sun signs and Moon signs at birth, along with their aspects and positions, are regarded as the "fountains of life on Earth". The Sun is one of the vital centers in a star map, along with the Moon, Ascendant (rising sign), and Midheaven (tenth house).

The power of the Sun and how it radiates within you can be thought of as light rays emanating from a light bulb, powering into your body. The Sun signs are divided into the Four Elements: FIRE (Aries, Leo, Sagittarius); AIR (Gemini, Libra, Aquarius); WATER (Cancer, Scorpio, Pisces); and EARTH (Taurus, Virgo, Capricorn). All males born with the Sun in fire signs have the best prospects for good vitality, as light radiates most freely in a body composed of the fire element. Light also radiates freely in air, and these natives are the next strongest, but air sign people become weakened by worry and nervousness. They need rest to recuperate. The earth element for sunlight is linked with the densest matter, gives tenacity, wear and tear, rather than vitality. These individuals tend to recovery slowly from their illnesses. The water element for transmission of sunlight gives the weakest constitution, being a more difficult medium to manifest light (except Scorpio).

The Sun is the giver of life, but is quite impersonal in its influence that the average man or woman rarely contacts its higher qualities in a conscious or positive sense. Planetary aspects, even if hard (square or opposite), are better than no aspects at all, as in the latter, the native is hardly touched at all by its influence. This fact is the reason "Sun sign" prophecies found in the tabloids and daily paper make no sense to some individuals. When well placed, however, it signifies will power, authority, and self-reliance. If afflicted by the Moon or Ascendant, it will make the health feeble and the vitality low.

The Sun rules the metabolic fires of your body's cells. Its placement represents how that energy is needed and distributed. This topic has been termed PHOTOBIOLOGICS by the author. All biologic life is ruled by the Sun. Your body requires copious quantities of light from many sources to maintain your health, vitality, and beauty. Each Sun sign has recommended foods that tend to foster vitality, as well as dietary pointers, and warnings about certain foods that will disturb your body's distribution of the Sun's vital rays, indicative by your Sun's zodiac placement (the season of the year in which you were born).

In terms of the Zodiac, the twelve signs represent the Grand Man, and rule the different parts of the body, from head as in Aries, to toe as in Pisces. Thus, there is a zodiacal rulership over the body and its organs. In terms of Sun signs and rising signs, it represents where disease potential exists. The locations and transits represent how an organ or bowel will be afflicted since these are rotating, dynamic entities. The houses at birth, signify why disorders will manifest.

Inharmonious aspects to the Sun are angles and locations of the other planets in their orbits in relationship to the Sun. They are called afflictions. For example, if the Sun is afflicted by a hard angle to the Moon, the health will be weak, and the rays of the Sun will be on the cold side, the eyesight will suffer.

**ANATOMY AND PHYSIOLOGY:** Vitality, the absorption of prana through the spleen, the immune system, heart function, spine and back, eyesight, individual cellular metabolism, the blood and oxygenation, consciousness.

## SUN in LEO

☉ in ♌

The dominant theme of Leo is to develop one's creativity and internal power. The mind and heart are polarized in Leo, representing man's attainment of individuality. The key phrase for Leo is "I will". This sign represents majesty, power, and dignity. When their egos are turned inward, Leos become self-centered and tyrannical. Leos express pride in every movement. As long as they are in control or in positions of responsibility, their self-

confidence is high. Leos whose desires for power and authority remain unfulfilled may develop traits of laziness, indolence, and inconstancy.

Leos are often courageous and bold and even stubborn when plans are not of their own doing. They can also be arrogant and willful, expecting the limelight, and the admiration of others. Their confident attitude may appear smug to others. Their sunny disposition and smiling eyes reflects a sense of hauteur, if not snobbery. The hair is abundant as in a lion's mane with the chin firm and purposeful. Leo is usually not a tall sign, but very sturdy with an even gait.

The Sun, supreme ruler of the human ego, rules Leo. Its influence gives Leos their true love of life, love through marriage, and its pleasures. They are strongly attracted to the opposite sex. It is easy for pleasure-loving Leos to become addicted to rich restaurant food, and in time they find themselves gaining weight, especially around the girth.

The signs have internal, external, and structural rulerships. Leo represents the heart of the physical system, a fire sign that heats the body and can lead to a loss of equilibrium between body and mind. Internally, Leo rules the heart, spinal cord, liver metabolism, spleen, pulmonary arteries and aorta, superior and inferior vena cava. Externally, the back and forearm. Structurally, the twelve dorsal vertebrae.

Leo colors are gold, royal blue, and red. Their benefiting color is purple which cools down their hot temperament. Leo rules gold, and the birthstones for this sign are amber, carnelian, diamond and topaz. These individuals should remember only to wear these stones if they wish to bring that particular energy into their life. Flowers for Leo include the showy dahlia, yellow lily, poppy (red), marigold, sunflower, heliotrope, orange, and rosemary.

#### **BENEFICIAL BACH FLOWER ESSENCES:**

Vine: Dominating, inflexible, ambitious, bossy.

Chicory: Possessive, self love, self pity, seeks attention, dislikes

being alone.

**HOMEOPATHIC POLYCREST REMEDY:** Chamomilla - Used in the treatment of colds and fevers; eases digestion and tension.

**CELL SALT:** Magnesia phosphorica

**HEALING NOTE:** E

**AROMAS:** Bay, basil, cinnamon, frankincense, ginger, juniper, lime, nasturtium, neroli, orange, petitgrain, rosemary.

**PHOTOBIOLOGICS:** Most Leos are suited to vegetarian diets due to their fiery nature. They should avoid meats that are heating like beef, turkey, and lamb. The vegetable foods which contain iron like spinach, kale, and wheat grass are important. Buckwheat, a cooling grain, is suited to the native. Blue fruits like grapes and berries benefit the native. Coconut, nuts, raisins, lentils are beneficial foods.

**SUSCEPTIBLE AREAS:** Head

**AFFLICTIONS:** Anemia, heart disease, palpitation; spinal disorders, backache; baldness; eye troubles.

**KARMIC TENDENCIES:** Death by plague.

## MOON

Your Sun sign indicates constitutional vigor and its elemental quality (fire, air, water, earth), your Moon sign shows the flow of this vital force and your health. The Moon predominates health matters in the female chart, as well as those caught under the influence of its emotional force. A disturbed flow of the vital force, ruled by the Moon, will cause fluctuations in vitality and ultimately disease. Your Moon sign and its aspects shows your instinctive, reflex actions, and your habits (good or bad). Moon patterns are reactions and habits set up in childhood, and become fixed unless acted upon by the individual themselves. Its location, aspects, and afflictions are one of the most important factors to consider in the health chart.

The Moon represents the personal habits, suffering, worry, and disease tendencies. The Moon sign is always very sensitive and represents the weakest part of the body. Operations should not be performed when the Moon is passing through the native's sign. The Moon rules the body's fluids, lymphatics, and the natural power of each organ, including its expulsive or detoxifying powers. Acquired and destructive habits are generally under the influence of the Moon sign. It rules the period of life from one to seven years, when so many destructive habits and health patterns are acquired, as for example from the parents or guardians. It shows what type of habits you may develop and how they affect your health.

Moon diseases today predominate the health chart. The Moon has a special affinity for the eyes and eye disorders, defects and errors of accommodation, putrefaction of the bowels, autointoxication; and disorders of the breasts, womb, and stomach. Moon forces harden and crystallize the body with age. Moon dominated persons are inconstant, restless, changeable, and variable, and succumb easily to infectious illnesses, colds and flu. The Moon rules the stomach. Today we see swollen abdomens due to excessive eating. Full, round bellies with visual defects reflect just how Moon bound and problematic the aspects of this orbital body is in the health astrological chart.

The Moon afflicts other planets and signs by its oppositions and squares. Ill-aspects show an inclination to little or no exercise. The less afflictions in the female nativity, the better a chance of a long and prosperous life. The Moon sign signifies diseases that are acquired after birth, particularly due to indiscretions, bad habits, and emotional proclivities. It rules the natural powers and immunity. Cancer, the malignant disease, is a Moon disease, and is prevalent in our mood-based society of foul language, nasty thoughts, toxic diet, and bad habits.

It should be noted whether the Moon is above the horizon at birth (waxing) or below the horizon at birth (waning). The health will be stronger with the Moon above the horizon, rather than below. Hard aspects (afflictions) are not as strong when the Moon

in waxing or increasing in light.

**PATHOLOGICAL TENDENCIES:** The Moon rules diseases that are periodic, return time and again, as in epilepsy, vertigo, menstrual problems, swellings, migraine headaches, and gout. Rheumatism is a Moon disease, caused by the retention of wastes in the joints and fascia. Cancer is a Moon disease, caused not only by retention of wastes but also morbid bacteria, fungi, and viruses. Moon diseases today are epidemic, as obesity, lymphatic stasis, tissue puffiness, autointoxication, fungal/zymotic disorders, and worm infestation affect nearly all industrial populations. Moon diseases are accentuated by working under artificial lights or at night, drinking water from underground pipes and/or obtained from recycled wastes, eating devitalized food stored in refrigerators and freezers, breathing stale, foul or polluted air; and eating slaughterhouse meats.

The foods and spices that benefit Moon afflictions are those ruled by the Sun and Mars. The Sun produces fruits and vegetables which when eaten raw and/or fresh, will vitalize the individual and ward off disease. The old adage, fresh is best, aptly applies to the health rules.

**ANATOMY AND PHYSIOLOGY:** Lymphatic system, breasts, mucous membranes, menstruation/fertility/uterus in pregnancy, stomach and alimentary tract.

#### ARE YOU A SUN OR MOON DOMINATED PERSON ?

The night is ruled by the Moon, and the Sun rules the day. The ancient astrologers believed that those born during the day are more ruled by the Sun, whereas those born at night are more ruled by the Moon. Moon activities tend to raise the action of morbid germs, while the electric action of the day tends to destroy them. Night activities are less vitalizing than daytime activities. Females and Moon people tend to suffer more at night when ill. Moon people are more restless, inconstant, and changeable. The Moon rules the personality and lower mind, while the Sun rules the intellect and higher mind. Health tends to return when one begins to "see the light".

## MOON in LIBRA

☾ in ♎

The Moon in Libra is a fortunate position for the acquisition of friends and public popularity. It indicates a kind, sympathetic, optimistic person, and one fond of social pleasures. If well aspected this position indicates good reasoning powers and good judgment and love of art and music. When afflicted, trouble in partnership, marriage, and public disfavor.

Urinary complaints are characteristic of individuals with Moon in Libra. This is a sensuous sign and these natives may be prone to gluttony and insomnia. Backache, blemishes and a ruddy complexion are common to this sign.

**SUSCEPTIBLE AREAS:** Breast, kidneys, heart, belly.

**AFFLICTIONS:** Bowel disorders, illness from undigested meats, obesity with hypertension and high blood pressure, diabetes, kidney disorders, stones, and impure blood.

**BENEFICIAL FOODS:** Pineapple, plantains, sunflower seeds, watercress, capsicum, and leeks.

**FOODS TO AVOID:** Red meat, foods containing a lot of sugar.

**RASHI HOMEOPATHIC MIXTURE:** Secale cornutum, bryonia, cocculus, ambra grisea, phytolacca, carbo vegetabilis, helonias.

## MERCURY

Mercury, when well placed in the nativity chart, indicates a good and balanced mind. It rules the cerebral hemispheres. Ill-aspected and afflicted, it shows a tendency to various disorders of mental reasoning, bad judgment, nervous disease, and tendency to gamble, swindle, insomnia, and a lack of spiritual calm. The location in the chart shows what body parts may be prone to neuralgia.

Mercury rules Gemini and Virgo, therefore it manifests in diseases related to respiratory and digestive disorders, particularly of nervous origin. Physiologically, Mercury rules the

respiration and breath. Mercury afflicted at birth indicates a tendency to shallow breathing. The Hindus believe rhythmic breathing is necessary for direct link between the soul and mind. Unrhythmic breathing severs this connection leading to nervous conditions, those easily influenced by others, proneness to depression, and even insanity. Proper and unregulated breathing beginning in early life leads to a cascade of pathological actions including lack of intellectual development, oxygen deficient blood, tendency to overeat since the diaphragm does not "massage" the stomach due to stifled breathing, lymphatic stasis since breathing opens the lymph channels, and lethargy due to lack of vital force and sluggish pranic currents. Mercury placement indicates much more than the mundane astrology books indicate.

Mercury is considered a neutral planet, in that its transmissions are governed by the aspects to other planets in the chart. When Mercury conjuncts the Sun, the ego is involved; aspected to the Moon, the subconscious and habits; to Jupiter, exaggeration, etc. When Mercury's nervous messages are distorted by the rays of another planet, inaccurate reception of information and inappropriate neural commands are likely. Simply, response does not match stimulus resulting in unbalanced behavior. If the large planets are involved, this can translate into important health consequences.

**PATHOLOGICAL TENDENCIES:** Mercury's chief influence is on the nerves. In regards to aches and pains, the placement of Mercury in the sign of body rulership shows tendency to affliction when ill-aspected. Thus, Mercury in Aries shows the tendency to headaches, in Taurus a tendency to laryngitis and sore throats, in Gemini chest pains, etc. To offset Mercury afflictions and thus reduce tendency to aches and pains, the native must learn proper and rhythmic breathing. Taking up study of yoga or Chinese Ch'i Kung would be of great benefit.

**ANATOMY AND PHYSIOLOGY:** Nervous system, nervous faculties; breathing, the hands, the touch; organs of speech and hearing.

**MERCURY in LEO**

☿ in ♌

Mercury in Leo indicates individuals with high ideals and aspirations. They possess a positive, strong and persevering intellect and can be outspoken, quick-tempered, but also kind-hearted and sympathetic. When well aspected, these natives have good organizing abilities and make capable leaders. They also have the tendency to appear haughty, proud and passionate. Individuals with Mercury in Leo have no trouble forming their own opinions and ideas. They find dramatic ways to communicate and are quick to refuse ideas that disagree with their own. They love children and are also fond of pleasure. When Mercury is afflicted in Leo it makes the person fickle and inconstant, an unsuccessful gambler, and of a low and sensual nature. This position can indicate back and chest pains. The native would benefit by chiropractic care and regular massage.

SUSCEPTIBLE AREAS: Feet, arms, shoulders, throat.

PATHOLOGICAL TENDENCIES: Backache, rheumatism of the arms and shoulders; fainting, palpitations of the heart, fatty heart, atherosclerosis, arrhythmia; disorders from "high living", and tendencies to catch colds from nervousness and fatigue.

NERVINES: Chamomile, olive oil.

## VENUS

From the days of Hippocrates, father of Western medicine (Fifth century B. C.), the ancients emphasized the value of diet and exercise as the prime methods of restoration of health and longevity. The ancient figurines of women, known as the "Venus statues", depict a bottom heavy, obese figure of a woman. Some of these Paleolithic figurines are believed to be more than 20,000 years old. They are found in all areas of Europe, as far away as Russia, and they all show women with huge, fat hips and buttocks. Today, it is known as the "Venus Syndrome", the connection between Venus and the lower body fat, today referred to as "cellulite" - the thickening and laxity of connective tissue beneath the skin, around gelatinous pockets of fat, which traps toxic matter and body wastes.

Venus is the principle of harmony, equilibrium, homeostasis, and

thus rules the body's hormonal secretions. The Moon and Venus rule strongly over the affairs and health of women. It rules over all regulatory and secretory functions, especially the female sexual hormones. It rules the chemical composition of the body's fluids, acidity and alkalinity, sodium-potassium balance, and the other mineral ions. The planet is basically benefic in action, but in hard aspect frequently points to numerous little disorders, showing a general relaxation of the system and body tone, but eventually debilitates the native as the years pass. Its afflictions are generally maladies due to indiscretions in diet and habit.

**PATHOLOGICAL TENDENCIES:** Venus has traditionally been associated with diabetes. Hard aspects to Venus point to lack of homeostasis, lack of tone, congestion and swelling of the body's tissues; cyst formation; and kidney disorders. Venus also rules over the veins and indicates such disorders as varicose veins, hemorrhoids, vascular spiders, etc.

**ANATOMY AND PHYSIOLOGY:** Homeostasis, hormonal balance, ovaries, kidneys, venous system, tissue tone, nutritional functions, skin and complexion.

## VENUS in VIRGO

♀ in ♍

Venus in Virgo indicates individuals with much sympathy for the sick, therefore many people with this position become successful nurses, dietitians, and therapists. These natives enjoy good relations with fellow workers and employees. Individuals with Venus in Virgo may be somewhat inhibited when it comes to establishing social or sexual relationships. Close friendships may be few, but are handled with care and responsibility. Afflictions to Venus indicate secret unions and strange experiences towards the close of life. This position can indicate irregular peristalsis and blood sugar problems, including hypoglycemia and diabetic tendencies. There is also tendency to allergy from dairy products.

**PATHOLOGICAL TENDENCIES:** Irregularities of the bowels, obstruction, intestinal mucus, diarrhea, and parasites from wrong diet, sluggish peristalsis and constipation; liver problems; intestinal parasites, tapeworm; hiatal hernia.

ASTRINGENTS/TONICS: Endive, pecan.

SUSCEPTIBLE AREAS: Feet, stomach, heart, belly.

## MARS

Mars is known as the "lesser unfortunate", and Saturn is known as the "greater unfortunate", as both are considered malefic planets. The action of Mars is acute and violent, heating, inflammatory, and febrile. Mars rules one's physical energy, expressed as either self-assertiveness and healthy efforts, or aggression and hostility. Mars actions include arousal, erection, and penetration. Mars diseases are traumatic, contagious, burning, blistering, leaving scars, pock marks, and disfigurements. They are diseases that arise from anger, frustration, madness, and wickedness. When Mars is well aspected, it shows a strong constitution, good physical endurance and independence. Natives under strong benefic influence are practical, handle instruments well, and make good surgeons and dentists. When unfavorably aspected, the native is prone to fits of fury, argumentative, and liable to accidents.

Esoterically speaking, Mars, like the Moon, is one of the planets that loses its influence as spiritual faculties are developed. It is a planetary influence where its principal expression - anger - always brings reciprocal negative reactions of the worst kind. To better understand its influence in the native, the house location indicates the external conditions in the life of the native that needs spiritual development. The zodiac sign location of Mars indicates the body's susceptible areas where the negative emotion of anger will raise havoc and disorder.

PATHOLOGICAL TENDENCIES: Inflammations and scars on the body parts ruled by the zodiac sign or house of its placement; alterations in blood chemistry, especially glucose, calcium, magnesium; geloses and myogeloses in muscular tissues; liver torpidity and congestion; genitourinary infections; hypertension and hypertensive headaches, migraine.

ANATOMY AND PHYSIOLOGY: Body heat, inflammatory response, adrenal function, formation of hemoglobin and blood

clots, digestion of food, muscular activity, glycogen storage and liver function, genitals.

## MARS in CANCER

♂ in ♋

Mars in Cancer, when well-aspected, indicates a bold, independent and fearless nature combined with a home-loving disposition. These natives will protect all things which make for comfort and luxury and they are good providers. However, they are apt to exercise authority over everything and everybody within the home. They tolerate no other authority there. This position makes the temper rather uncertain and there is a tendency for the native to change occupations. If Mars is afflicted it indicates domestic troubles at home, frequent if not violent scenes and quarrels, child and spouse abuse, etc. It also indicates accidents by fire in the home by carelessness. Indigestion from eating foods that are too spicy is a common problem for these individuals. The native should drink adequate amounts of water (6-8 glasses daily) and a glass prior to mealtime. This will offset acid indigestion and reduce the tendency to overeat. Potassium iodide drops taken periodically will fight the liability to stomach infection from eating infected meats, chicken, eggs, etc.

**PATHOLOGICAL TENDENCIES:** Indigestion, abnormal appetite, craving for spicy foods, bowel disease, gastroenteritis, dyspepsia from over eating, distended stomach with functional weakness, fond desire for strong coffee; weak eyesight, conjunctivitis; cystitis; breast swelling, pains and cancer; chest pains and tendency to catch pneumonia; edema; and with females puerperal fevers and tendency to abortion; fetid body odor.

**ANTIPHLOGISTICS/COOLANTS:** Papaya, coconut, cucumber, mushroom, lettuce, tofu.

**VULNERARIES:** Calendula lotion, chamomile.

**KARMIC TENDENCIES:** Death at sea (afflicting the Sun, Moon, or Ascendant).

**SUSCEPTIBLE AREAS:** Feet.

## JUPITER

When favorably aspected, Jupiter shows one's tendency to benevolence and jovial disposition. These natives are courteous, refined, law abiding, and honorable. When adversely aspected, it denotes lawlessness, self-indulgence, carelessness in meeting obligations, and gluttony which results in ill-health.

Medically, Jupiter in the natal chart rules the liver, the main organ for balance and detoxification, reception of the intestinal portal circulation, and control of fat utilization. Thus, Jupiter rules fat metabolism. It rules the arterial blood, and the functions of digestive assimilation, especially in regards to the liver. Jupiter also rules the adrenals and the storage of glycogen, and thus has influence over the stamina and muscular power. The placement of Jupiter points to those herbs and dietetics that will best suit the native for detoxification and periodic cleansing of the bowels and thus the liver.

Although Jupiter by nature is benefic, it has a malefic influence when in hard aspect to the Sun, Moon or Ascendant; and in the sixth house. Most of its maladies are accentuated by indiscretions in diet leading to blood disorders, toxicity, and fatty accumulations.

**PATHOLOGICAL TENDENCIES:** Obesity, toxicity, hypertension, abdominal fullness, diseases from "high living", stroke, hemorrhagic diseases, jaundice.

**ANATOMY AND PHYSIOLOGY:** Liver functions, especially detoxification and glycogen storage, production of urea and bile; fat metabolism; blood and arterial system; growth hormone.

## JUPITER in LIBRA

4 in ♎

Jupiter in Libra, when well-aspected, indicates a kind, sympathetic and loving disposition. These natives are conscientious, sociable and have benevolent natures. They are popular with the opposite sex and benefit may be expected from their partners. Success in the business and public life are

characteristic. If Jupiter is afflicted there may be indulgence of the lower natures which will bring troubles and public scandal with a loss of popularity and prestige. Working in partnership, joint ventures, and other cooperate efforts is the key to their success.

**SUSCEPTIBLE AREAS:** Sex organs, legs, head, eyes.

**PATHOLOGICAL TENDENCIES:** Diabetes; kidney disease, albumuria, renal tumor and obstruction, edema; impure blood with sores, ulcers, and pimples; fatty tumors on the back; ailments and disorders from high living; hypertension, congestive headaches; adrenal insufficiency and fatigue.

**LIVER CLEANSING:** Celery and cucumber juices to flush the kidneys and liver.

## SATURN

In Greek, Saturn is known as "kronos", from which our word "chronic" is taken. Permanent disease is signified by the placement of Saturn in the chart, and its course and attack by the motion of other planets. Its action signifies binding, crystallizing, cold, dry, hardening, depleting, obstructing, retarding, and suppressing. The afflictions of Saturn are for prolonged periods, whereas Mars afflicts more acutely, for short periods.

Saturn's placement in the chart is associated with the solid matter of one's body, ruling all dense components and processes. Saturn in any part of the horoscope is considered an affliction to the zodiac sign, house, and parts of the body so ruled. It tends to weaken and make one more liable to disease, and the sign and parts ruled are usually considered the most vulnerable, even to cause death through disease and malignancy. Those parts ruled at birth by Saturn indicate reduced nerve and energy supply, insufficient oxygenation, accumulation of tissue acids, and thus fibrositis, myositis, and rheumatism. The planet Saturn indicates subnormal conditions by inhibition, retention, and suppression. The medical astrologers at the turn of the century stated that carcinoma is most liable to occur in that part ruled by the sign that Saturn is in at birth. Saturn also has rulership over the blood's clotting factors, the parathyroids, and calcium metabolism.

Saturn's afflictions come from lack of self control, spiritual development, and materialistic tendencies. When manifested negatively, Saturn's principle action is quite simply fear. The hard aspects indicate opportunity to come to terms with a specific kind of fear. The type of fear is indicated by Saturn's aspects (conjunct, square or opposition) to the Sun, Moon, Mars, Mercury or Venus.

**PATHOLOGICAL TENDENCIES:** Typical Saturnine problems are chronic skin complaints, stiffness of the joints and muscles, deformity; dental problems; deafness; depression; slowed atrophy and functioning of the body's processes; scleroses of the body's tissues, rheumatism from accumulated tissue wastes in the sign or house of the nativity chart.

Subluxations of the spine are partial dislocations of the vertebra which impinge and put pressure on the nerves passing through them, shutting off nerve supply and causing irritation and pain leading to disease. Along the lines of chiropractic philosophy, health is maintained by a correctly aligned spine that requires periodic adjustments by manipulative therapy. Palpation and X-ray discover these deviations but your astrological chart can identify weak areas that will be chronically affected. Each sign of the zodiac, and malefics placed in them, tend to afflict the vertebra, especially the vertebra ruled by the sign in which Saturn is found at birth. Such subluxations tend to be the major one throughout life. For example, the sign Libra rules the kidneys and if Saturn is here at birth, the 10th, 11th, 12th dorsals, and 1st lumbar will be afflicted the most, and this is known before examination. From a chiropractic or osteopathic standpoint, the emphasis of treatment should be in the area where Saturn was afflicting at birth as this area will show stasis, restrictions, stiffness, and congestion.

**ANATOMY AND PHYSIOLOGY:** Skin, bone and joints, teeth, hearing, ossification.

## SATURN in LIBRA

♄ in ♎

In this sign Saturn is exalted. When favorably aspected, the finest Saturnine qualities are usually manifested. The native

enjoys public esteem and recognition. This is a good location for lawyers and doctors, and for scientific investigation, along both material and metaphysical lines. It favors refined tastes, a humble marriage partner, good health and long life. When Saturn is afflicted there is danger of unsuccessful litigation, trouble and opposition in employment, delays in marriage and domestic difficulties. The marriage partner may be treacherous or die prematurely. Most of the restrictions encountered by individuals with natal Saturn in Libra involve interactions with other people, partnerships, or contractual arrangements. Kidney weakness is characteristic of this position. The native should drink distilled or reversed osmotic water to keep the kidneys clean and functioning. Large amounts of protein from dead animal flesh should be avoided.

**SUSCEPTIBLE AREAS:** Knees, thighs, skin.

**PATHOLOGICAL TENDENCIES:** Kidney disease, suppressed urination, nephritis, faulty elimination with tendency to toxicity and impure blood, renal sclerosis, renal stones; tendency to sea sickness; lymphatic stasis; spinal disorders, sciatica, lumbago, knee problems; rapid tooth decay, dental problems; arteriosclerosis; liver problems; genital disorders; fatigue and tiredness due to impure blood and kidney retention of toxins; backache due to exposure to cold causing acid crystals in the tissues; arthritis.

**COUNTERACTING STIMULANTS:** Cinnamon, curry.

**RULING VERTEBRA:** 10th, 11th, 12th dorsals; 1st lumbar.

## URANUS

Uranus rules your electrical life breath, and thus your avenues for personal as well as societal freedom. It indicates potential for originality of thought and expression, yet its energy is not accessible to much of humanity at this time. In society it rules the apparently radical ideas and people that are years ahead of their time. They lead to revolutionary events that upset established structures. The Aquarian age of which we are now entering is ruled by Uranus. Its cycle began with the discovery of electricity which it rules and is now interconnecting everyone on the planet

with a synthetic telepathy.

Karmically, all aspects of the personal planets - Mercury, Venus, Moon, Mars, Jupiter and Saturn, or the Ascendant - indicate areas of life where there is a strong urge for freedom of expression without restraint and the need for constant stimulation and excitement. This planet also represents the capacity to be high-strung, excitable, and temperamental. The motives of Uranus thus represent the purpose of radically repolarizing an individual's past lives, and open one up to new experience either through stimulating, shocking, and even traumatic crises to find new ways of living. People who are ruled by Uranus are lovers of freedom, rebellious at least restraint, intuitive and inventive. They are aviators, high level mechanics, or deal directly with electricity. It also tends towards erratic behavior and can make people irritable and brusque in manner.

**ANATOMY AND PHYSIOLOGY:** Skin, bone and joints, teeth, hearing, ossification. Uranus rules all the rhythmic processes of the body. It rules the movement of the whole digestive tract from mouth to anus. Thus, the common symptom of its afflictions are spasmodic manifestations and disrupted rhythms - muscles spasms, shock, cramp, strictures, ruptures, paroxysms, and contortions.

## URANUS in SCORPIO

♅ in ♏

Uranus in Scorpio, when well-aspected, gives the native forceful and determined will power. These individuals are able to overcome obstacles and achieve goals with persistence and determination. The mind is sharp, shrewd and secretive, capable of grasping details and concentrating deeply. There can be originality, genius and a love for science. An afflicted Uranus in Scorpio indicates the native is prone to accidents or sudden death by explosions, electricity, or by air travel. It also gives a tendency to trouble with the genitals due to self-abuse or sexual perversion. Uranus rules the autonomic nerves and placed here there is tendency to irregular bowel movements, diarrhea and constipation.

**PATHOLOGICAL TENDENCIES:** Appendicitis, spasmodic flatulence, autointoxication, constipation and/or diarrhea;

spasmodic disorders, tremors, twitching, menstrual cramps; hay fever; bladder spasm/stricture; cancer of the generative organs, deformities and afflictions of the womb, miscarriages, abortions, venereal disease; allergic rhinitis or sinusitis, spasmodic sneezing; coronary thrombosis; spastic colitis, anal stricture.

ANTISPASMODICS: Garlic, hawthorn berries.

KARMIC TENDENCIES: Death by assassination; death by drowning (afflicting the Moon) or by flying (afflicting Mars or Mercury); rape or sexual perversion; sudden illness in the urinary and sexual organs, anus, pelvis and bladder; unexpected divorce.

## NEPTUNE

Neptune takes approximately 164 years to orbit the zodiac, taking about 13 years in each sign. Its position is a kind of cultural expression manifesting itself with imaginative and creative faculties of a generation. Its location points to a common spiritual destiny shown by the sign that it occupies. As one gets older, new generations may then seem strange in style, cultural or artistic expression, something not innately understood by the native.

People with an afflicted Neptune should always be on guard for deception, trickery, and fraud. Since each one's life is the outcome of former living, afflictions of Neptune offer ready channels where enemies from past lives or evil spirits can gain entry into our sacred temple. Forewarned is forearmed and confrontations can be stepping stones upward in life, or misery leading to drug abuse and apathy. Afflictions to Neptune may also indicate a previous life of extreme asceticism where the physical body was ignored or neglected leading to a leaky aura in this life. The corroborating symptoms are tiredness and need for a lot of sleep. There is also susceptibility to tuberculosis as Neptune is the ruler of this disease. Sunlight counteracts the tubercular diathesis and helps to harden and anneal an etheric body with a leaky aura. Likewise, a favorably aspected Neptune may let one drone away one's time, neglecting valuable opportunities offered for soul growth by following the deceptive lines of least resistance. Neptune rules illusion and abstract thinking, as well as those areas of life where conditions are not always what they

seem.

**PATHOLOGICAL TENDENCIES:** Neptune's placement in the natal chart points to conditions which are difficult to diagnose, or are wrongly diagnosed. It has rulership over the aura and etheric body. Its afflictions denote laxity and weakness of the vital force, and subnormal conditions, as lack of development, undersized body or organs. Its placement in the chart and hard aspects has a strong rule over wasting of tissues leading to decay and disintegration. Its pathological manifestations are lethargy, drug abuse, intoxication, and general lack of tone throughout the body.

**ANATOMY AND PHYSIOLOGY:** Pineal gland, appendix, right-brain function.

## NEPTUNE in SAGITTARIUS

♆ in ♐

Neptune in Sagittarius, when well aspected, increases the inspirational, devotional, mystical, philosophical, and religious tendencies in the horoscope. It brings dreams, visions, and metaphysical experiences. These natives are fond of travel and take great enjoyment in new experiences. When Neptune is afflicted, these individuals become liable to fears and forebodings. Their dreams of danger and visions of distress make life miserable. At times they have great desire to travel but are unable to, or if they do, they have trouble or accidents to contend with.

**PATHOLOGICAL TENDENCIES:** Nervous disorders, dream disturbed sleep.

**HERBAL STIMULANTS:** Anise, sassafras.

## PLUTO

Just as your Sun sign represents your true identity in this life, Pluto's house represents an old pattern of identity from the past. It is a past pattern of life that is carried over into this life. We can say that Pluto's house is that area of life where complete regeneration is needed. Compulsive behavior and even ruthlessness needs to be transformed into willful intentions yielding great

powers of perception and insight into the subtle forces of life. Plutonian people can make great healers simply by touch or vision.

The aspects of Pluto to other planets gives an indication as to how that transformation can bring new understanding and regeneration. Whether the aspect is "hard" as in square or opposition, or "easy" as in a trine or sextile, determines whether one has an innate knowing, or will meet some hard karmic destiny. There is an enormous potential for power by discovering those fields of experience in the house of Pluto. It heals when it is tapped.

**PATHOLOGICAL TENDENCIES:** Medically, Pluto's energy is concerned with eliminative processes, both physical and spiritual. The energy represented by Pluto is life-giving and cleansing. Pluto's transits are said to destroy the old forms in order to bring in the new. It's pathological manifestations are abscesses, malignancies, ulcers, and poisonous bites.

**ANATOMY AND PHYSIOLOGY:** Reproduction, defecation, expulsion of waste matter.

## PLUTO in LIBRA

♇ in ♎

Pluto in any sign always represents fundamental change, upheavals, and drastic transformations. Pluto's transit in Libra was from 1971-1984. This is a sign of human relations, justice, and social expression. Means were sought to settle foreign issues by law rather than by war. Libra demands equality and Pluto is power. Pluto's transit in Libra indicates great shifts of world power to favor a more equitable balance. During the recent transit there were increasing demands of Third World nations for their fair share of the earth's resources. World sentiment was also developing against South Africa's policy of apartheid. During this period, the homosexual communities began demanding more equality. This period marked one of the greatest breakdowns in the history of the marriage relationship. Cohabitation became commonplace and many preferred not to marry. Many children are now suffering from unstable relationships formed during this time because of parents who refused to make solid commitments.

## PATHOLOGICAL TENDENCIES: Cancer.

### HOUSE 1

The first house and the sign that rules this house, is also known as the Ascendant or rising sign, or that zodiac point which is actually crossing against the horizon at the exact time of your birth. It denotes your outer personality and physical constitution. The Ascendant is about interaction with you and the environment, the meeting point between the individual and the external world. Its sign denotes the animal heat and corporeal vigor. The planet ruling the sign of the Ascendant is considered one of the principal ruling planets of the horoscope. First house placement is so important, that the degree of the sign rising is treated as though it were a planet with regards to aspects with other planets and with regards to pinpointing details of the health chart of the native - his/her mind, body, strength, diseases subject to, etc. The sign on the Ascendant denotes the body's conductance or resistance to the inflow of prana or vital energy. It is conducted best by fire and air signs; and resistant if the rising sign is of water or earth elements.

In every sense the first house should be called the native's personality as it shows what is on the surface, how you appear to others, how the world sees you or what we call the native. Thus the horoscope is also called the nativity chart. Outsiders are attracted to you by this sign. It accounts for those glaring contradictions we find in human behavior. You may feel yourself as sexy, yet it is not picked up by others or appears that way due to your rising sign's influence, and vice versa. It explains why some people are forever getting in trouble or attracting trouble through no intentions of their own. When the first house contains no planets, it means individuality is not a matter of personal concern, these individuals accept themselves "as is". If the first house contains one or more planets, then the native is consciously concerned about some aspect of his identity. There is some dynamic or hang-up that needs resolution, karmically speaking.

Planets in the first house indicate the native is aggressive and strives to be "first" denoted by the planet or planets posited. These individuals usually have a difficult time resting and relaxing

their bodies which they need to learn in order to insure good health. First house people tend to be individualists with a forceful drive and ambition in life.

The first house shows the organic elements, the physiological factors, and the physical characteristics which determine the strength and resistance of the body. The Ascendant and the first house represents the "original impulse of individual being", or the self as a particular vibration and rhythm, and the unique soul destiny of the individual. It indicates essentially the type of experience through which he/she will best discover who they are. The zodiacal sign on the Ascendant normally tells us the "dharma" of the individual, the central potentiality which the conscious person is seeking to actualize. If there are planets in the first house they indicate the kinds of functions which will be most valuable in the process of discovery of one's authentic being. Thus, the planets and the first house ruling planet show the way to impel performance of specific acts.

One can often discover what zodiacal sign was rising at birth (if time of birth is not known) by studying a person's facial features and expression. The head symbolizes the essential character of the individual. The head is ruled by the first house. The first house rules the body form, constitution, and temperament. The physical appearance, strength and vitality, weight, height, color of hair and eyes, etc. are largely determined by the rising sign, degree rising on the cusp, etc. The position of the first house ruler and planets rising modifies these features. The zodiacal sign ascending denotes the part of the body more liable to affliction from external causes such as trauma and infection.

The benefics, Jupiter and Venus, in the first house at birth indicate a good constitution, whereas the malefics, Saturn and Mars, denote scars, birthmarks, moles and defects of the head. This house at birth, and by direction, signifies all diseases of the head, face, eyes, ears, nose, and mouth. This house is closely associated with the feelings, sensations, emotions, manners, passions, and dispositions of the native. In this regards, it explains why the Sun sign does not reflect all the features of the native, and why the Ascendant and the Moon sign are of equal importance

in the analysis of the health horoscope.

Regarding the compatibility of healer and patient, the rising sign in each natal map should be in harmony, belonging to the same triplicity, that is in trine or sextile to each other. If the patient has Aries on the Ascendant at birth, his/her healer should also have a fire sign on the Ascendant, as in Leo or Sagittarius. If the healer employed has Cancer, Libra, or Capricorn on the Ascendant it would tend to be adverse, if not in results, certainly in relationship and cooperation. The sextile and trines naturally tend to inspire confidence and faith between healer and patient.

**AFFLICTIONS:** Head and face, endocrine disturbances which affect the mental states, brain tumors, high fevers, meningitis, migraines.

**HEALING COLOR:** Indigo

**EMPOWERMENT COLORS:** White, pink, red, champagne

## CANCER ASCENDANT

♋ on 1st

A Cancer Ascendant indicates those who are emotionally oriented. These individuals are sympathetic and sentimental. They are happiest at home and enjoy assisting others. Many people with Cancer rising are intuitive if not psychic. These natives may appear vulnerable to others if their dress and style is too "homey" or loose. Therefore they should remember that leaving home without paying attention to their dress shows.

Pale sickly skin and complexion will have to be overcome with diligent skin care and careful tanning (These natives must watch out for the Sun with this rising sign). The chest is often bigger than the hips. They have a strong tendency to retain water, leading to lymphatic stasis. Their emotional orientation is indicative of an addictive nature, which means it is difficult to escape a battle with excess weight or addictive substances. Roundness of face, pale, sensitive skin, and baldness or finely textured hair are physical attributes identified with Cancer Ascendant. Cancer is considered the weakest sign of the zodiac, owed to the vulnerability to outside influences. The emotions,

breasts, stomach, lymphatic and digestive system are apt to be their most physically vulnerable areas. In this sign, one is apt to succumb easily to disease. A rising sign well aspected tends to offset this weakness, strengthening the constitution and recuperative powers.

The rising sign is divided into thirds, or 3 "decanates", which have a powerful influence over the appearance and form of your body. The sign is simply divided into three 10° aspects as follows: 0-10° first decanate, 11-20° second decanate, and 21-30° third decanate. Each decanate is ruled over by a planet. The first ten degrees is ruled over by the indigenous sign ruler, the second takes on the qualities of the next elemental ruler, and the third the successive element sign ruler. Thus, the first decanate of Aries is ruled by its Mars, the second takes on the qualities of Leo, and the third would combine the qualities of Aires and Sagittarius, and so on throughout the zodiac. Simply locate the first house on your natal chart and note which degree is rising in the sign listed. This gives you your decanate. If in the last few degrees of the sign, e.g. 26° or more, you would also take on characteristics of the first decanate of the following sign.

**FIRST DECANATE APPEARANCE:** Ruled by the Moon, it tends towards a stout figure, prone to puffiness, obesity, and full bosomed. The Cancer tendency is to gain weight in the mid-section.

**KEYWORDS:** Feelings, imagination, home-loving, maternal, mediumistic.

**SECOND DECANATE APPEARANCE:** The Mars influence of Scorpio affects the appearance as well as the disposition. The eyes are close-set and the expression wary and frequently furtive. The nose is pointed with a sharp gaze.

**KEYWORDS:** Passionate, fertile, extravagant, rebellious, magnetic.

**THIRD DECANATE APPEARANCE:** The Pisces decanate gives expanse to the girth, full bosomed, obese, and puffy.

**KEYWORDS:** Mystical, religious, poetic, musical, emotional.

**EMPOWERMENT COLORS, GEMS, AND FRAGRANCES:** Green, russet, silver; beryl, moonstone, sapphire; camphor, lemon, jasmine, sandalwood.

**MODERATING COLOR:** Violet.

**PATHOLOGICAL TENDENCIES:** Lowered vitality, lymphatic stasis; pale, sickly complexion with hard aspects; catarrhal disease, chest disorders; tendencies to ill health in childhood, weak constitution; large full abdomen, swollen breasts; poor digestion, dyspepsia, edema; gluttony, hypochondria, lethargy, debility, obesity.

## SUN in 1st HOUSE

☉ in 1st

Since the first house deals with the constitution of the body and condition of the home in childhood, the Sun, when well-aspected in the first house, adds vital energy to the rising sign and greatly augments the recuperative powers. This position indicates a "sunny" disposition, and makes the person generous, free, outspoken, ambitious, proud, firm and stable. These individuals exhibit quick perception, which adds a certain amount of dignity to their personal appearance which impresses others. People with the Sun in this position love to lead and exercise authority over others, yet are upright and honest in their dealings. Sometimes they are combative, and imbued with self-confidence which results in rising in their sphere of life to a position of trust and responsibility.

If in so-called evil aspect to any of the planets, the constitution may be impaired. This is especially true if the aspects are from the malefics - Saturn, Mars, Uranus and Neptune. Losses may also be incurred by the native's impulsiveness in business affairs, if not by gambling. It lowers the vitality, makes the person timid and vacillating, lacking in courage and ambition. Hence the chances of a successful life are slim unless many other aspects are good, thus modifying this condition.

**PSYCHOLOGICAL TENDENCIES:** This position indicates a strong will and intense self-awareness. People with this position are not easily swayed by the opinions of others and manifest their own course in life. They have good initiative and leadership powers. However, if the Sun is afflicted there can be excessive pride, egotism, compulsiveness and desire to rule others.

**PATHOLOGICAL TENDENCIES:** A cold constitution, cataract, conjunctivitis, blemishes; much anxiety; heart problems, tachycardia; sunstroke; over-active mind; constipation.

**PSYCHIC PURIFICATION:**

**Anxiety:** Not trusting the flow of life brings on anxiety. The resolution here is to trust the flow of life, accept conditions as they appear as part of the wisdom of God.

**Pink eye, conjunctivitis:** Anger and frustration, not wanting to see. The affirmation here is to release the need to be right, to be at peace and know within what others may not know, nor need to know at this time.

**Heart Problems:** A lack of true joy with long standing emotional problems, a belief in hard work ethic, strain and stress. The affirmation here is to allow joy to flow through mind and body and to release the material things in life.

**Cataracts:** Seeing no joy in the future, gloom and doom mentality. The affirmation here is to look forward to every moment and see the joy in life.

**Blemishes:** I am being threatened. The affirmation here is to protect yourself with joy and internal peace, be free and happy at this moment.

**SUN conjunct MERCURY**

Sun conjunct Mercury indicates natives that are apt to be very biased in their opinions and ideas due to close identification of the mind and ego. This makes it difficult to view themselves impartially. There is a better chance that the native will not be so ego oriented if natal Mercury is in a different sign than natal Sun.

**PATHOLOGICAL TENDENCIES:** Nervous disorders, forgetfulness, high-strung; nerve related problems according to the sign or house location, e.g. sciatica (Sagittarius or 9th), neuritis, Bell's palsy (Aries, 1st), etc.

**NUTRITIONAL ASPECTS:** Increased needs for the B-vitamins, especially thiamine, and magnesium.

**BENEFICIAL FOODS:** Sunflower seeds, whole grains, tea, fruits and vegetables.

### MERCURY in 1st HOUSE

♀ in 1st

Mercury on the Ascendant sensitizes the nerves of the body, especially when the planet is in air, fire or water signs. The person is quick-witted, talkative, and mentally sharp according to the nature of the sign, especially if in air or fire signs. The native's actions are based on logic and reasoning, mental initiative and will power. These individuals make good scholars, scientists, librarians, and researchers because of their innate ability to express themselves intelligently. If well-aspected, this Mercury position enlivens the intellect and stimulates the faculties of sense-perception and memory. When Mercury is adversely aspected, the health may suffer and the astuteness of the keen, discerning and discriminative faculties will be held in abeyance.

**PATHOLOGICAL TENDENCIES:** Hair loss, insomnia.

### PSYCHIC PURIFICATION:

Balding, hair loss: Try not to control everything with fear or tension and trust the flow of life.

### MERCURY sextile JUPITER

♀ ✕ ♃

Mercury sextile Jupiter is one of the finest assets in life, for it indicates a cheerful, optimistic disposition with the ability to always look upon the bright side of things. The mind is broad, versatile and able to reason correctly and form a reliable judgment by careful deliberation. These people never give a hasty decision. They require time to think over whatever is presented to

them, but once they have reached a conclusion it will be found irreversible. They are successful in law or literature and much respected for their honesty and sincerity. This aspect is particularly fortunate for people who travel for business or pleasure, for they will reap both benefit and enjoyment. This aspect makes them "healthy, wealthy and wise" beyond the average person, and loved by everyone for the vital vibrations they radiate upon whomever they meet.

**NORMERGIC TENDENCIES:** Strong memory, refined face; strong vital force and memory; active mind and body.

### MERCURY sextile SATURN

♀ ✕ ♄

Mercury sextile Saturn indicates serious natives that possess depth and concentration which is of inestimable value in life. Their forethought and profound reasoning abilities insure success in whatever vocations these people may pursue. Their patient persistence permits no failure to stand in the way of ultimate success. Therefore they generally become prominent in connection with some serious enterprise such as secret societies, the church or even politics or governmental affairs. They are in demand for high positions and great undertakings. They are quiet, subdued and serious in their manner and their tidiness extends into their health and hygiene.

### HOUSE 2

The second house rules material matters, property, wealth or poverty, etc. It denotes the level of acquisitiveness as a driving force, or the level of greed for power and wealth. This tends to affect the native's homeostasis since possessions are related to the value placed on food and nutrition, habits in acquiring food and other immediate necessities of life. The pituitary gland, which controls all endocrine glands, falls under this house.

The belief or realization for those so gifted, adds another dimension to understand second house questions. One's tendencies, faculties, and karma produced from past lives and carried over into the present rests with the concept of management, that is, intelligent use of one's inheritance,

possessions, artistic talents, or even inventions. The second house can show the mere fact of ownership in today's essentially "unspiritual society", or one who lives according to spiritual values and surrenders to mankind assets to promote human evolution. It shows then if a person can advance beyond the traditional use of possessions, or is acting merely as an agent for the "ghosts of karma" (Geg in Tibetan), with a life filled by ancestors, driven by socio-religious hatreds and fears.

When no planets occupy this house, it indicates the native does not see money as a major issue in life. With planets in this house, the affairs of other houses which those planets rule are brought to bear influence on the matter of obtaining money. For example, if Saturn is in your second house, tenth house matters, such as your profession, is where the money will easily flow from.

People with planets in the second house have overwhelming desires to prove their self-worth, establish themselves in society by big factors as indicated by the house rulers outlined above. For example, if the Moon is in the second house, fourth house matters like the home are important and the native will desire a big home or big family. After having established their nest eggs, (with the personal planets Venus, Moon, Mars, Jupiter placed in this house) gluttony is not uncommon. The native will also learn the karmic problem of this house - happiness is the one thing that cannot be bought.

**AFFLICTIONS:** Problems with homeostasis - blood and electrolyte changes, intake of nutrients - diabetes, obesity, hypoglycemia; disorders arising from vaccination.

**HEALING COLOR:** Yellow

**EMPOWERMENT COLORS:** Green, lemon, citrine, brown

## LEO on 2nd HOUSE

♌ on 2nd

that will benefit the home life, and their money may come from other sources such as the spouse or by inheritance.

### HOUSE 3

Astrology speaks of the third house as that of brothers and sisters, and close relatives. It actually means the earliest newborn environment and of one's grown relationship to it. The relationship of the child to his/her environment is basic and substantial in the formation of his/her character, and of responses to life. The third house refers to the early environment and to persons who acted within it - close relatives, guardians, siblings, etc. It also shows in the child "coming to terms" which is at first entirely unconscious and instinctual, later becoming the foundation for human intelligence, and consciousness.

No planets in the third house means response in a natural fashion. One or more planets in the third house indicates a self-conscious need to express thoughts. It may sometimes indicate speech difficulties. The native is often asked too often to help other people, brothers and sisters. The disease of "other people" can lead to great frustrations and nervous stress. These individuals need to learn to say no, take regular breaks in peace and quiet, take short naps after lunch, etc. for the health to improve.

Malefic planets in this house tend toward mental instability and chaos unless well aspected. It shows traumatic experiences such as child abuse, fights with siblings, rebellion, etc. What differentiates this house from its opposite, the ninth house, is that of experiences involving direct personal contact with the close environment of the individual, resulting in habits and proclivities. It indicates physical actions, and transportation, especially within your immediate environment. Benefics in this house, when well aspected, indicate a well balanced mind. It rules the fingers, hands, chest, lungs, the lower mind and wakefulness.

It also indicates thoughts and speech are guided by unconscious factors arising from family conditioning and early childhood. There is a strong liking for mental occupations. The mind, however, is to some extent lacking in continuity. Thus occupations that do not demand a permanent residence are best suited to these people. The limelight of publicity appeals to the native, and these individuals are usually good at editing and reporting in newspapers, where one must be on the alert. If the Moon is afflicted it indicates unfinished education, which usually results from the continual influx of new ideas. When favorably aspected, it is good for learning and mental attainments along popular lines. If the Moon is strengthened by good aspects to Mercury they may reach a position of prominence.

**PSYCHOLOGICAL TENDENCIES:** The influence of the Moon indicates those who like to keep busy in their own communities. Their emotional identification is linked to their environment, early education and their brothers and sisters.

**PATHOLOGICAL TENDENCIES:** Insomnia, unrefreshing sleep; prone to daydreaming, fantasy and nervousness.

**PSYCHIC PURIFICATION:**

Insomnia: Not trusting the processes of life; guilt. The resolution here is to know tomorrow will take care of itself.

Daydreaming: The breath must be regulated by rhythmic breathing in order to stabilize the mind. The practice of meditation, Ch'i Kung, and yoga would be most beneficial.

**MOON sextile MERCURY**

The Moon sextile Mercury indicates a receptive mind and retentive memory. Natives with this aspect are usually very verbose, likely to have strong and active minds with urges to communicate their feelings. They are inclined to look upon the bright side of life and are fond of pleasure, particularly travel. They are highly inquisitive and attuned to what others are thinking and seek to make use not only of their own thoughts and ideas, but those of others as well. Moon sextile Mercury indicates those with sound, balanced minds that are well integrated with their emotions. The conscious mind and subconscious work in harmony, indicating good memory. Instinctively knowing what others want to hear and their clever communication skills are the keys to their success, by mail, phone, the media, or telecommunications.

**MOON square MARS**

Moon square Mars indicates a quick temper with a tendency to hasty or impulsive acts that may cause the native a great deal of sorrow and trouble. These natives resent rules or regulations that tend to curb their desires or gratification of their appetites. As a result there are periods of severe financial and domestic troubles. If they are in authority they are apt to be domineering and exacting in their demands. Sometimes they will even take desperate chances or use physical force to satisfy their spite. Such people make many enemies and cause a great deal of suffering to others, particularly among members of their immediate family.

**PATHOLOGICAL TENDENCIES:** Susceptibility to parasites; genital infections; peculiar symptoms when diseased; food allergies

and indigestion; hyperactive mind, anorexia, bulimia; shallow breathing, irritability, migraines, nervous disorders; weak vision; prone to fractures; painful menstruation, difficult pregnancy, miscarriage, difficult conception; blemishes; anemia; adrenal fatigue; edema and water retention, high blood pressure; headaches and mental dullness.

## MOON conjunct JUPITER

☾♃♃

Moon conjunct Jupiter indicates an optimistic and generous disposition with an emotional body of excessive desires. These individuals exhibit an open-hearted, honest, and friendly nature which make them universally popular. This aspect strengthens both the reasoning faculties and constitution indicating a strong mind in a strong body, and a powerful personal magnetism which may be used in healing the sick. These natives have high ideals and fruitful imaginations. They usually have the power of acquiring wealth which will increase if used in philanthropic enterprises of which these people are prone. #### HOUSE 4

The fourth house is said to have two basic meanings - the soil or secure foundation in which man is rooted; and the "heart" or fundamental rhythm of the individual self. It is indeed the Nadir of the chart, the midnight point of consciousness, where "God-experience" can be had. The vertical line of the birth chart - Zenith to Nadir - points upwards to the sky (Zenith) and downward through the spinal column at the center of the globe. Unity comes by centering one's "Hara" or vital energy with that of the Earth.

Its sign and planets refer to the kind of feeling which spontaneously mobilizes and directs the energies of the organism, often called "gut feeling". The Ascendant tells who we are, while the Nadir shows what we are, at least potentially, where we stand. It is the power implied in "being a person", yet in today's global economy it is basically conditioned, if not entirely determined, by socio-cultural patterns and media manipulation, rather than by ancestral family values. Thus it indicates the beginning as well as the end of various cycles in the native's life, including old age, the end of life and death, the various conditions which affect the close of life, its diseases, worries, wealth or poverty, etc. The nature of the end of life will be told by the planets in this house, and the sign on which the cusp begins the part or organ where the complaint will lie.

If there are no planets in the fourth house, the native accepts his background and family and makes the best of it. If there are one or more planets in the fourth house, then conscious attention is directed towards his background. He/she has reasons to question, if not doubt family matters. Some may have unfortunate liabilities to overcome before they make headway in life. Malefics in this house can indicate early childhood traumas which are best

recalled and cleared by past life regression. Neurosis can result from repressed anger. Parental attitudes and conditioning have led to unhealthy if not neurotic habits. All these matters of childhood trauma and abuse are judged by the fourth house.

At the biological level, the fourth house symbolizes the acquirement of nutrients to satisfy basic physiologic needs to meet daily routines and obstacles. It is the energy needed for intercellular exchanges and for adjusting the body to changes in temperature and the demands of the physical environment. It rules over the body water, interstitial fluid, and lymphatic environment. In a mentally and emotionally developed person, one's personal power (Hara) is available for self-expression and social contact. In an undeveloped or immature being, confusion sets in with mixed impulses carried over from previous lives and those values family and society has forced upon the individual. This results in oral fixations, hormonal imbalances, lymphatic stasis and obesity. It is a being out of rhythm, breathless, confused and never satiated.

This house rules the breasts, lungs, stomach; inheritance; the birthplace and home place; the mother in the male chart and father in the female chart. Benefics in this house at birth indicate that the native should live in his native homeland, if possible, for insured good health and fortune, leading to a happy end of life. Malefics here point to a short life of the mother or father, according to the sex of the horoscope; disease, distress, and worry in old age.

**AFFLICTIONS:** Oral fixations, overeating, nutritional disturbances, obesity, anorexia; diseases of the stomach, breasts, and lungs.

**HEALING COLOR:** Violet

**EMPOWERMENT COLORS:** Silver, green, russet, brown

As a result, they are prone to procrastination, putting off decisive action in order to gather opinions. There is a desire to be master of one's own home and domestic life. A strong occult tie with the earth may be found in a transformed love of nature, ecology or conservation. Or one may wish to know the secrets of life through geomancy (using a divining rod), or exploring. This Pluto position also indicates some form of upheavals in home life. These childhood experiences ultimately leave one with a sense of no control over life matters.

**KARMIC LESSON:** Rediscover your deepest feelings about yourself and your sense of security, inner peace, and contentment.

### HOUSE 5

At its highest potential, the fifth house shows the exteriorized power and a projected vision originating from a realm that is "super personal". The person thus becomes an agent for some great collective consciousness or planetary, evolutionary purpose. He/she becomes a lens through which light is condensed and brought into focus, at which point power can operate and work can be performed. This creative process, work, and its products are conditioned by the nature and temperament of the person. The person acts strictly as an individual. To the extreme, he/she expects results that will bring fame, prestige, and ego-satisfaction.

The fifth house is the area of experiences which are essentially the outcome of emotions, as distinguished from gut feelings of the fourth house. Feelings are spontaneous reactions, whereas emotions seek an exteriorization, or "moving out" with synchronous organic changes and muscular movements. The fifth house is associated with gambling in any form, for money, business ventures, romance, etc. whenever one follows hunches, inner frustrations, or imagination.

Traditionally, the fifth house is considered to be the section of the birth chart (radix) referring to love affairs, versus a seventh house marriage. Fruitful signs and planets here denote many children, barren signs and planets here tend to deny children. This house rules the back, spine, liver, stomach, appetites, loves affairs and sexual appetites. This house is said by some to rule the soul.

Each house of the radix refers to power and unfoldment, as well as some great test of the developing individual. The zodiac sign on the cusp of this house and planets within should give the student of astrology clues as to the best way in which he or she can solve problems creatively. The Chinese character for danger, also means opportunity, depending solely on one's perspective and ability to be creative. The test of the fifth house is that of isolation, or emergence as a unique and valuable human being. The test of the second house is that of ownership and possessions. In the third house it is thought and how to handle ideas to approach challenges of one's environment. The fourth house test is that of stability. The fifth is creative self-expression.

No planets in this house means the native has little attraction to fifth house matters. He/she can take gambling or leave it. One or more planets in this house shows the native has a natural interest in art, pleasure, children, romance, or gambling. These natives may feel a great need for love. ## HOUSE 7

The seventh house is closely related to the sign Libra, and thus marriage and partnership, the husband in a female nativity, and the wife in a male nativity are also related. This house shows the test of functional cooperation and participation between individual and society. Function suggests purpose, both inherent and potential, in man or woman. Purpose is only revealed as one operates within the group or global economy. It is the field of human experience that the person can be most basically transformed and can gain freedom. Planets in this house reveal compelling pressures and motives for destiny. In such cases, individuals may find themselves driven to enter into certain types

of relationships as part of their destiny.

While the first house represents how the native appears to others, the fourth house shows how the natives sees himself or herself, the seventh house represents how others appear to the native. It represents those whose lives touch the native and how they respond. If the house is unoccupied by planets, he/she is comparatively free of the influence of others in most of his/her affairs. These individuals do pretty much as they please, but it also means others do not generally help them either. The affairs of this house are always related to the area of another house where the ruler of the sign on the seventh cusp lies. If there are one or more planets in this house, the native is consciously dependent on others in some respect and other people tend to control his/her affairs. The eighth house deals with business contracts and agreements that are legally binding. The eighth house field of experience deals with trust, management, and responsibility. With such a native, emotional scarring tends to be hidden. These individuals have a burning need to purge themselves of past memories which brutally punish their bodies for years. Many succumb to chronic ailments around the ages of 42 to 49 years old. With the background of this emotional insecurity, they push hard for overt success, only for their bodies to crack up under the pressure. Sex is often their only form of organic release.

## HOUSE 9

Experiences and the tests related to the ninth house are those periods encountered by the individual to find the meaning of things. The act of knowing belongs in the third house because it implies mere contact with the immediate environment. It is knowledge derived merely from sensations. The ninth house relates to understanding, a far more complex process which involves synthesis of many factors and data. The German term "gestalt" applies to the ninth house as a type of knowing, understanding, and referencing holistic experiences derived from mystical and philosophical inquiry.

The ninth house is the house of symbols and words. Symbols have to be interpreted. The radix chart is a set of symbols relating to the location of planets and stars at the time of birth. It symbolizes the complex relationship existing between the native and the universe. Likewise, all religious concepts and mystical visions are symbolic of man-to-universe relationships. To speak of a "God Experience" is a typical ninth house activity, a unity which the person projects and asks for answers for all his conceivable needs.

The danger one faces in ninth house experiences is over-expansion caused by ambition and greed for power and power

symbols, such as money. Ambition is the negative aspect of this house, leading to compulsive egocentric relationships that use other people for power or prestige. Knowledge is used to achieve power. It is this type of knowledge our society holds in high esteem. Ours is a society imbued with competition and ambitions, worshipping success and power with no concern for the environment and health of society as a whole. Thus the relationships become perverted, destructive and inharmonious to a wholesome life. In such a society, the mind is used as the instrument of success. Group relationships translate into compulsive cooperation, mandated actions, and forced taxation. It implies twisting the laws, natural as well as political, so they become tools for gathering wealth. This is the mind of the politician, the corporate leader, the scientist in search of inventions and discoveries for personal fame.

If the house is unoccupied by planets, the native finds it easy to accept certain philosophical principles or cause of religion, and there is no resistance to understanding higher principles. If the house is occupied, the native is concerned with philosophical formulations or developed principles. Due to this high thinking, people with benefics in this house are some of the least likely to have health complaints.

The ninth house denotes the fundament, hips, thighs, hams, higher mind, dreams and visions. Malefics in the ninth house at birth tend to disturb and unbalance the mind, or cause religious excitement and fanaticism, unorthodox views, and trouble with religious authorities. It also points to dangers in foreign travel, injury or ill-health, or even death abroad. It is advised that persons with malefics at birth with no benefics in this house should remain in their native land.

**AFFLICTIONS:** Accident and injuries to the hips, thighs and hamstrings; nervous strain and stress; sports injuries and trauma.

**HEALING COLOR:** Scarlet

**EMPOWERMENT COLORS:** Jade, purple, white, yellow

## HOUSE 10

In the tenth house an individual meets experiences which result from his/her successes or failures in gaining social, public or professional position. He/she is integrated, or fails to become integrated into the social collective and public status in the community. It is one's "office" which defines one's stand in the community. First house potential becomes actualized in the tenth, if all has gone well during the unfoldment of preceding houses. It is a house of vitalistic functions, being on the Midheaven or zenith. The tenth house, the house of Midheaven, corresponds to the sign Capricorn. It rules the knees, hamstrings and thighs. Planets in this house have a powerful influence in matters of health and disease, especially in regards to nervous tension and stress developed from one's career, as well as injury from falls, blows, or the death of a parent. In the male nativity it rules the father, in the female nativity the mother and the affairs of the mother.

If the tenth house is unoccupied by planets, the native's ambitions and their probable outcome are more directly related to that area of his affairs where the ruling planet falls where the tenth house cusp is found. If the house is occupied, the native has a conscious struggle both to formulate his ambitions and put them across to other people. Any planet in the tenth house reveals more of the outcome of this house than the actual sign or "house rulership." Planets in the tenth house contribute directly to the native's position in life. Their worries, internal pressures and incessant need to work hard may drive them into chronic illness.

**AFFLICTIONS:** Obesity, anorexia nervosa; nervous tension, self-undoing, misery; accidents; evil of a parent, the "sins of the father passed onto the sons".

## HOUSE 11

In the eleventh house, the power of society, as a collective or group, is released through the individual. The power is released through the activities the individual performs within the social unit such as in their profession, church, club, fraternity, etc. Success is seen pleasurable in the social environment as his/her work and prestige unfolds. The experience gained in the tenth house makes it possible to set new social objectives, new professional goals, or to relax in the company of one's peers or fellow workers. This house has much to do with an individual's attitude towards achievement and social success. It is the use a person makes of either achievement or failure which establishes his/her self-worth. Success or failure brings into the total being the way one lives, feels, and acts and thus has great influence on the health of the native. Success as well as failure must be used wisely, significantly, and creatively. Regression therapy can do much to undo the patterns that led to failure, or perceived failure can be unfolded into a new dynamic.

If the eleventh house is unoccupied, the native does not consciously need friends to share his/her wishes or hopes. Those who have planets in the eleventh house always work best within

## TAURUS on 11th HOUSE

## HOUSE 12

At the twelfth house, the sky comes to an end, as one has performed his social or professional work in the eleventh. It is described as the house which closes the human cycle of life. They are either the Angels of Light beckoning to the beyond, or they are the dark Guardians of the Threshold, whose memories are shaped by frustrations, denials in life, fears and sins of omission. In the twelfth house we meet the results of our passive acceptance of that which was, or our spiritual rebellion that helped make a new world. We face the karma of society in a subconscious manner, or we face the karma of individuals who fought society for selfish interests, or for the sake of a better world.

The collective power of memories are witnessed in the twelfth house. What is called karma may be so great that it stifles the individual identity of the newborn, or drowns out the rhythm of a new cycle of the man facing the probability of rebirth. This results in the new cycle, becoming no more than a repeat of the

last cycle. According to ancient Indian philosophy, the last thought held in death determines the pattern of the future incarnation. One of the stranger characteristics of our linear, Western society is its inability to think in terms of cyclical processes. Such a denial can be traced to a religious decision of the Council of Constantinople in the 5th century A. D. which prohibited the belief in reincarnation and other factors that began the era of the dark ages.

The twelfth house relates to sorrow, disappointment, loss, misfortune, the private hells, anguish, solitude or confinement, hidden fears and worry. It is considered by some as an "evil house", the house of restrictions and limitations, and detrimental spiritual or psychic conditions of the native. It is related to the sign Pisces. Its placement suggests the best way to deal with one's ghosts and products of the subconscious. The best way to deal with a shadow is to illuminate it by the use of lights focused upon it from a number of different directions. This process is utilized in past life regression therapy. Ghosts and shadows of the subconscious will vanish when subjected to the light of understanding and compassion.

If this house is unoccupied by planets, the native is generally not consciously confronted with its implications. He does not live in fear and accepts and works within the framework of his destiny. Not everyone in life is confronted with the spiritual issues of the twelfth house. Many indeed pass through life facing the material consequences of their conscious ambitions as revealed by the tenth house. If the twelfth house is occupied, the native has some matters in which to confront and work out as shown by the houses ruled by the occupying planets. The sign on the cusp of the twelfth shows the general tempo of inner spiritual matters in the native's life. Planets here indicate forms of introversion with emotions that build up until some form of illness manifests. Talking about their feelings through past life regression is the best remedy for twelfth house individuals. They need to learn that harboring envy, jealousy, and hatred invariably brings disease and misfortune. The karmic law applies.
